Dear Year 9 Parents,

Yeronga SHS welcomes the news that our Acer Iconia W701 tablets funded by the National Secondary School Computer Fund (NSSCF) will be delivered to school shortly. This is especially good news for our Year 9 students as they will be allocated these new tablets.

Before we can issue a new tablet, there are a few things you and your Year 9 child must do.

What you need to do?

Attached is a copy of the NSSCF Q4 Charter document. It describes the equipment your child will be loaned, and outlines their responsibilities in looking after and maintaining the Acer Iconia W701 tablet. The Charter also details warranty conditions, and your accountability should a tablet be lost, stolen or not classified as accidental damage. Please read this document carefully as you and your child will be asked to sign this document thereby agreeing to the Terms and Conditions. Acer Iconia W701 tablets can only be issued to Year 9 students who return a signed and dated Charter document. Should you not wish to sign the Charter, your child will retain their present laptop.

The Charter document also asks you to nominate the filter applied to the tablet – medium or high. Medium filter allows access to social media sites or high filter which blocks social media sites, including YouTube.

You can access more information on the tablet, filter option and Terms & Conditions on the school’s website http://yerongashs.eq.edu.au

When do I return the signed and dated Charter document?

To avoid disappointment, please make sure the Charter document is returned to the office before the end of this term (21st June).

What must your Year 9 child do?

On Monday 17th and Tuesday 18th June, all Year 9 students must bring their current laptops, bag and battery chargers to the library. Students will be issued with their new Acer Iconia W701 tablets in the first week of Term 3.

Yours Sincerely,

Terry Heath
Principal

Dianne Goodison
ICT Chair
