## School overview

Yeronga is a comprehensive high school with a long tradition of academic, sporting and cultural achievement. 'Quality Pathways to Success' is the school vision, underpinned by the values of *Quality, Harmony and Sustainability*. Yeronga is a very harmonious school where students from the local area including those from diverse backgrounds mix together in a climate of mutual respect and support.

Our beliefs guide our approach to teaching and learning. We believe all students, parents and teachers can learn, and learning is best achieved when learners know and understand their strengths, habits and behaviours. Our beliefs are reflected in the Yeronga SHS Pillars of Teaching and Learning; the three focus areas being Wellbeing connected to learning, Student-centred learning and Quality teaching. The foundation for these pillars are Reflective Practice and Professional Learning that develop expert teachers and teams with stronger individual and collective efficacy.

Students are expected to be actively engaged in the learning process and develop their abilities to the upmost. This is embodied in the '5Ps' - student expectations of being positive, punctual, prepared, productive and proud. The school's responsible-behaviour plan for students emphasises a culture of respect and the creation of optimum conditions for learning.

Yeronga's students are genuinely proud of their school and its achievements, and wear its uniform with pride. Yeronga SHS reflects the diversity of the suburbs surrounding the school and provides all students with the opportunity to succeed.

Our NAPLAN data includes ALL students at the school (many of whom speak different languages). The school prides itself on 'value adding' to the learning of every student - from advanced learners to those who have more complex needs. The school's strong 'pathways' focus has produced high level academic and vocational results for students - evidenced by the numerous OP 1-5 students who have graduated from the school as well as those with higher level Vocational certificates, including Diplomas.

Yeronga has a strong pastoral care program featuring dedicated care class teachers, a Year 7 induction program, school camps in Years 7, 9 and 11, and an innovative leadership development program.

Visitors to the school regularly comment on the overwhelming positive and supportive learning culture that is present and go away with an acute awareness of why Yeronga SHS is such a great learning community.

## Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

### Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

### How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

## Social climate

### Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

## Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at

<https://education.qld.gov.au/parents-and-carers/community-engagement>

## Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community. Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

## Environmental footprint

### Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	385,227	371,958	377,875
Water (kL)	14,386	10,445	2,320

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool\* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

\*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.
